

SCIENTIFIC MEETINGS

2025

12th March

Evangelos Giampazolias

CRUK Manchester Institute, UK

Host Determinants of Cancer Immunity. Killing Cancer with Gut Instinct

16th April

Paula Paulo

Cancer Genetics Group, Research Center of IPO Porto

Linking Genetic Markers with Therapeutic Opportunities in Prostate Cancer

7th May

Mariana Silva

Principal Scientist at Vor Bio, USA

Novel CD33/CLL-1-directed dual CAR-T cells mediate potent antigen-specific cytolytic activity in mouse models of Acute Myeloid Leukemia (AML)

11th June

Pedro Leite Silva & Anabela Faria de Sousa

Epidemiology, Outcomes, Economics & Management in Oncology Group,
Research Center of IPO Porto

Unlocking the Potential of Cancer Registry in Oncological Research

8th July

Lorena Dieguez

Medical Devices Research Group, International Iberian Nanotechnology Laboratory

Applying Nanotechnology to Cancer Diagnostics and Precision Medicine

----- SUMMER BREAK -----

10th September

Kirsteen Campbell

CRUK Scotland Institute, Scotland, United Kingdom

Engaging the BCL-2 family to eliminate cancer cells

15th October

Adriana Carneiro

Experimental Pathology and Therapeutics Group, Research Center of IPO Porto

**Isolation and Characterization of Circulating Tumour Cells and Clusters in
Gastrointestinal Cancer: Towards Non-Invasive Biomarkers for Prognosis**

12th November

Rita Fior

Champalimaud Foundation, Lisbon

Zebra fish avatar for cancer (to be confirmed)

10th December

Valeria Tavares

Molecular Oncology and Viral Pathology Group, Research Center of IPO Porto

**Tumour Coagulome and Venous Thromboembolism-related Biomarkers for
Prognosis Assessment of Ovarian Cancer Patients**
